

## Who Are We?

Evionica is an industry leader in Polish aviation.

We provide intelligent solutions to improve the aviation business globally. Our services include Weight and Balance Software, Aviation e-Learning, Flight Training Software, and CAMO management software.

## Job Summary

We are a fast-growing e-Learning provider, designing and delivering training solutions for global brands. Our client list includes some of the worlds' largest aviation brands Lufthansa, LOT, KLM, Wizz Air, Leonardo, Fly Dubai, Polish Air Force Academy, and GAA, to name but a few.

If you are an enthusiastic Aeronautical Engineer who can translate complex information into straightforward, concise, and appealing content, then keep on reading!

We currently have an exciting opportunity for an **Aeronautical Engineer** (Instructional Designer | e-Learning Developer) to join our team at Evionica. This position is responsible for developing creative, modern, engaging, and effective learning solutions and training programs for airline and student pilots.

Our solution is in accordance with EASA's Acceptable Means of Compliance (AMC) and Guidance Material (GM) to Parts, and other related EASA, FAA, and IATA regulations.

Soon, you will mainly work on the ongoing projects, but potentially some vast and impressive projects and technologies (such as VR and AR) from scratch.

Come and join us in making a difference in aviation across the globe!

## Aeronautical Engineer

### What will you do?

- Collaborate with Subject Matter Experts (SMEs), product owners, and stakeholders to understand training needs,
- Develop storyboards, scripts, and scenarios,
- Design, develop, publish, manage, update, and maintain web-based training (WBT), including but not limited to Evidence-Based Training (EBT) and Competency-Based Training (CBT),
- Convert storyboards into animated, interactive level 2 and 3 e-Learning modules in Articulate Storyline, Articulate Rise, or Adobe Captivate,
- Take ownership of the quality of Learning Experience Design for the duration of the project,
- Work collaboratively with internal project teams (Engineers, Sales, Marketing, Graphic Designers, and IT),
- Evaluate existing training to identify opportunities to maximize the effectiveness of learning through re-design,
- Looking for new solutions to meet the needs of customers and increase the attractiveness of the training offered.

### What we expect from you:

- What we expect from you: minimum BS/BA degree in any of the following disciplines: Aeronautical Engineering, Transportation, Instructional Technology or similar Engineering majors,
- Excellent verbal and written communication, and content editing capabilities,
- Excellent English skills (C1),
- Strong project management and boundary-setting skills that ensure timely turnaround of deliverables,
- Proficient in Microsoft Office applications: Word, Excel, PowerPoint, etc.

### What will be an advantage:

- Knowledge of tools like Articulate Storyline and Articulate Rise, or Adobe Captivate,

- Previous experience in agile framework, Learning Management Systems (LMS), Learning Experience Design, and Instructional Design,

Benefits:

- A hybrid model of work after the on-boarding process,
- Flexible working hours (starting from 7:00 AM to 11:00 AM),
- Subsidized benefit system including Multisport and Luxmed packages, Private Parking Space,
- For students: flexible schedule to fit your studies,
- Work on things that matter and have a tangible impact within the aviation industry,
- Great team and lots of opportunities to develop your skills.
